

THE LANGUAGE EXCHANGE

Intermediate English Lesson

Duration: 1 hour

The Advanced English course is for students with some experience of speaking English and who are able to hold a conversation, but who do not feel confident in situations outside their “comfort-zone”.

Lessons will include a variety of exercises to build confidence in different situations, both professional and personal, as well as an insight into customs and practices.

Some subjects which have previously been covered include (although the teacher has complete discretion to determine the lesson structure and content and will advise this during lessons):-

- (a) Making conversation with other people
- (b) Explaining what you want to a service provider (i.e. a garage-owner, etc.)
- (c) Making a telephone call to a government office
- (d) Job interviews

If you would like to learn something specific, please advise the teacher, and they will make an effort to adapt the lesson or future lessons to your requirements.
